Adobe Spark Page

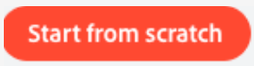
Log Into Spark

On Desktop go to spark.adobe.com
Go here for login instructions
On iPad download apps from Manager

Start a New Website

Select the blue plus button at the top of the screen. Click '**View All**' Select '**Web Pages**' to view templates.

Use a Template or Start from Scratch

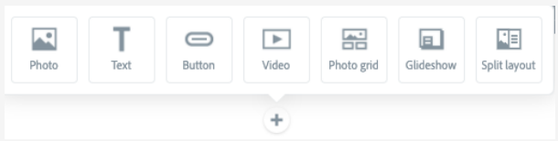


Or

Select from one of the available templates

Add Content

You can add text, photos, buttons, or video by clicking the ***'plus'*** button



Select a Theme, Add Buttons, Video, Photo grid and Slideshow

Theme - Choose an overall theme for your website. Each theme has predesignated colors and fonts selected.

Video - Add an embedded video from YouTube, Vimeo, or Spark Video by providing the link.

Button - Add a button to link to a website, online document, or page within your site.

Photo Grid - Add a collection of photos to display as a photo gallery. Once photos are added, you can edit the grid by clicking on any image to display an editing toolbar with options to replace, resize, rearrange, and delete images in the grid.

Working with Images/Text

Image/Photo- Images can be added by clicking the 'Photo" button. ***Upload from your device***, or use the ***Search option within Spark*** for copyright free images.

Note*-Images can't be edited directly in Spark Page, as a workaround use Spark Post to edit and create custom graphics.

Focal Point-you can decide the focal point of any image you add to your site by clicking the image and dragging the circle to the part of the image that is most important when viewed on a mobile device.

Text - When you add text, you have various options to help you create a visual hierarchy. Use the headings settings, bold and italics formatting, bullets and numbering, and text alignment buttons.

Publish Your Website

Once your website is complete you can Publish and Share the link.
